San Diego, CA 92121

## CONTACT US

### OUR STORY

Since 1996, BLCI has been breaking the cycle of poverty by preparing underserved students to be the first in their families to go to college. To date, 100% of students who have completed the program have graduated from high school and enrolled in college.

### OUR MISSION

Our mission is to break the cycle of poverty by preparing underserved students to be the first in their families to go to and graduate from college through no-cost after school programs that begin in third grade.

### THE NEED

Economic challenges and rising operational costs have resulted in a 30% increase per student, raising the cost for a year of programming from \$5,000 to \$6,5000 per student per year. Your support will help bridge the gap of increased program costs and ensure continued access to educational programming for San Diego County's most impoverished and underserved youth.

## YOUR IMPACT

Bring the opportunity of education to more students like Priscilla – a remarkable example of taking full advantage of BLCI’s support. Told by a high school counselor that she would never be accepted to a 4-year university, the staff at BLCI helped her realize her potential. Priscilla graduated with a Master of Social Work degree from CSU East Bay.

Priscilla’s story is a testament to the power of education, perseverance, and community support. She credits her mom and BLCI with being instrumental in helping build her path to education. She plans to become a licensed clinical social worker and advocate for underserved communities and other first-generation students.

“My story is a testament to the power of education, perseverance, and community support. It is my unwavering belief that everyone deserves access to compassionate care and equitable opportunities. With each step forward, I remain grateful to BLCI for all of the support it provided me and am committed to making a meaningful difference in the lives of others and leaving a lasting impact on the world around me.”

### A DEEPER LOOK

- 71% of BLCI graduates earn a college degree. This exceeds the average college completion rate in California of 55% and triples the expected graduation rate of 21% for low income and first-generation students like those served at BLCI who did not benefit from a program like ours.
- 95% of BLCI alumni are gainfully employed or pursuing a secondary degree within 6 months of graduation
